EDUCATION

2021-2026
UNIVERSITY OF BUSINESS AND TECHNOLOGY (UBT)
- Computer Science and Engeeniering

CERTIFICATIONS

2021-2022
ICT KOSOVO SUPPORT
- Java and Android Development

2022-2022
REACT DEVELOPMENT COURSE
- End-to-End React learning program by Maximilian Schwarzmüller.

SKILLS

- End-to-end project delivery
- Client management
- UI/UX design
- Full-stack development
- DevOps & deployment
- Technical consulting
- Critical Thinking

LANGUAGES

- English: Fluent
- Albanian: Fluent

PROFILE SUMMARY

Frontend-focused full-stack developer skilled in React, Node.js, Express, MongoDB, and MySQL. Experienced in creating clean, responsive, and user-friendly interfaces while handling backend features when needed. Focused on maintainable code, smooth user experience, and scalable project delivery.

WORK EXPERIENCE

Freelancer 2021 - PRESENT
Full Stack Developer

DriveHub – Car Rental Platform
React, Redux Toolkit, Node.js, Express, MongoDB, MySQL, Stripe
- Built multi-step booking system with JWT auth and Stripe payments.
- Created hybrid database setup (MongoDB + MySQL) with optimized CRUD operations.
- Developed admin dashboard, real-time filtering, email notifications and RBAC security

Adover Cosmetics – E-commerce Platform - www.adovercosmetics.com
React, Vite, SCSS, GSAP, Framer Motion
- Built responsive store with 30+ products and category filtering via URL parameters.
- Created reusable components, animations, and mobile-first layouts for smooth UX.
- Optimized performance with Vite and memoized components.

ATV Rent – Rental Service Platform - atv-front.vercel.app/ (BETA)
React, Node.js, Express, MongoDB, Multer, JWT, SCSS
- Developed full customer website and admin CMS for inventory management.
- Implemented REST API with auth, file uploads, CRUD operations, and protected routes.
- Deployed to Vercel with environment config and optimized routing.

Akeree – Energy NGO Platform - www.akeree.org
React, React Router, Vite, SCSS/SASS, React Spring, PostHog
- Built a responsive React SPA with dynamic routing, reusable components, animations, and mobile-first UI using SCSS/Tailwind.
- Added PostHog analytics, performance optimizations (Vite, code splitting), and interactive features like blog pages and project timeline.

Brother Sweets – Candy Factory www.brothersweets.com (BETA)
React, Vite, React Router DOM, SASS/SCSS
- Built a responsive React SPA with custom product carousels, smooth scrolling, and mobile navigation.
- Used SASS modules for scoped styling and optimized UX with touch gestures, auto-slide, and hash-based routing.

WORK EXPERIENCE

Suisse Tech Partners   2023 - 2024
Full Stack Developer

- Rapidly transitioned to Oracle ADF development with Java EE, becoming proficient in enterprise-level application development
- Designed and implemented complex database-driven screens using Java EE and PL/SQL with advanced table relationships
- Built dynamic, rights-based navigation system using Spring Boot, PL/SQL, and Oracle ADF with adaptive menu visibility based on user permissions
- Developed secure PDF encryption/decryption system integrated with WebLogic and Spring Boot API for fast file retrieval
- Created error capture system using Python that logs errors to database and generates Excel reports via Java and PL/SQL
- Developed custom dashboard carousel enabling seamless switching between dashboards without user preference adjustments
- Gained expertise in JDBC transactions, WebLogic, and Tomcat for enterprise application deployment
- Performed XML manipulations with JSF, XML, and JSFF files for feature integration

Pristine Tech   2022 - 2023
Frontend Developer

- Developed enterprise web applications using React, Next.js, TypeScript and Strapi CMS with server-side rendering (SSR) for optimized performance and SEO
- Built custom CMS with CRUD functionality using React, Material UI, and TypeScript, implementing role-based access control (RBAC) for secure user management
- Engineered fully responsive web applications using HTML, CSS (Sass), and JavaScript with DOM manipulation for dynamic user experiences
- Collaborated with UI/UX designers and backend developers to deliver pixel-perfect, scalable interfaces with cross-browser compatibility
- Developed custom React hooks and reusable components to improve code maintainability and reduce development time by 30%
- Integrated headless CMS architecture with API-driven design, streamlining content management workflows
